10. What we can do to help

- 10.1 With the information you provide us, we can work out the best way to help you. We are able to provide further details upon request. Below are some of the ways that we may be able to assist you.
- (a) Payment plans and alternative payment arrangements
- (i) If we determine that you are experiencing financial hardship, we will ensure you are offered either:
 - additional time to pay a bill; and/or
 - an interest and fee free payment plan.
 - (ii) We will work out the terms of the payment plan with you to consider your circumstances. Factors will include the number of instalments required to pay the bill and/or arrears, the amount required to repay your outstanding debt, the amount you can afford and your estimated consumption during the period of the proposed payment plan. Once we have agreed to the payment arrangement, we will send you an instalment plan showing your new payment dates and agreed payments.
 - (iii) If you have engaged the services of a financial counsellor or a consumer representative, we will consider their assessment of your financial situation and capacity to pay when developing the payment plan. Once we have agreed to the payment arrangement, we will send you an instalment plan showing your new payment dates and agreed payments.
 - (iv) If you are still having payment difficulties whilst on the payment plan, you can request that we review the plan. We may also offer to vary a payment plan if a review indicates that you are unable to meet your obligations under the payment plan. Please note, we are not required to undertake a review on more than two occasions in any 12-month period.
 - (v) When you enter a payment plan with us, or while you are on a payment plan and have consistently demonstrated a commitment to meeting the agreed plan, we will not disconnect your electricity due to non-payment.
